

HumanaOne Agent Online Application.

Adding a link to your Web site

Getting your unique HumanaOne Online Application Link on your Web site.

HumanaOne makes it easy to create a link from your Web site to your own designated online application page.

In the box below you will find the link you will need to include on your Web site in order to link your client's to the online application.

IMPORTANT:

First, you will need to update the link to include your personal **Humana Agent Number** (the seven digit number you received from HumanaOne.) Once you have done this, you will have *your unique* online application Web address.

Your seven digit Humana
Agent Number goes here.

<http://www.humanaoneapplication.com/?humanaagent=1234567>

Once you have your unique online application Web address you may have your [Web technician](#), or whoever manages your Web site, add this as a link on your Website. An example of how this link can display is provided below:

[Apply for HumanaOne Individual Health Insurance Online](#)

You should work with your Web technician to complete the following:

1. Determine where you want the link located on your Web site.
2. Make sure you've updated the link to include YOUR **Humana Agent Number**.
3. Add the following html code to your Web site in the location you want the link displayed:

```
<a href="http://www.humanaoneapplication.com/?humanaagent=1234567">YOUR LINK  
DESCRIPTION GOES HERE</a>
```

4. Replace the text "YOUR LINK DESCRIPTION GOES HERE" with whatever text you choose. The example above is "Apply for HumanaOne Individual Health Insurance Online".
5. Save and Publish your site.
6. You can test your link to make sure that your Name and contact information displays on the Web page after clicking on the link.

HumanaOne logos can be found on HumanaOneHQ.com (username = your state password = humanaone) if you would like to add these to your Web site.

**If you have any questions, contact the HumanaOne
Agent Service Center at 1-800-833-2572**
